During the harvest season, under the sunlight, hundreds of scattered Hui-style houses and the colourful harvest produce on the drying racks create a splendid "autumn drying" landscape, attracting many photographers to come here for shooting and creation. However, it's generally recommended to take the cable car, as riding in the cable car allows you to overlook the terraced fields of Huangling below, with interwoven shades of yellow and green, providing a fantastic feeling. **(Cable car included)**
- **Dragon Dream Park, the Pearl of TaiHu** - With an area approximately four times that of Shanghai Disneyland, it's a world reminiscent of "Spirited Away." During the day, you'll see the magnificent ancient town of Lake Tai, and at night, you can enjoy the magnificent fireworks and the "Beautiful Lake Tai" show.
